Motorcycles must be equipped with 3 number plates provided by the organizer.

The start of motorcycles will be given every day on the Place du Foirail in groups of 4 riders every minute. In the minute following the start signal, the rider must start his engine on the starting line, and cross, under the impulsion of the engine, another line located 20 meters from the start line.

If a rider is not on the start line when the starting signal is given, he will not be penalized, provided he brings his motorcycle to the start line, turns it on, and crosses the 20 meters line in the minute following the starting signal.

Any minute late on the line will be turned into a penalty, as well as any engine start requiring more than a minute. Similarly, a rider who does not cross the 20-meter line within one minute of the starting signal will be penalized with 10 seconds (see summary of penalties, article 23). He will be able from this moment to start his machine by any means at his convenience after the 20 meters line without outside help.

A rider who fails to start his engine, or if he stops in the area between the two starting lines, shall not return to the starting area after the one minute delay. He should push his motorcycle in the minute in the direction of the race and cross the 20 meters line in order not to disturb the other riders.

Every morning, after the start of the last competitor, the Parc ferme of the La Vabre car park will no longer be watched. Assistants or riders not taking the start will have to pick up their vehicles. The organization will not be held responsible for damage or theft.

### **Article 19: Time controls – Passage controls**

- a time card on which are shown the imparted times for each Time Control;
- a plastic sheet fixed to the handlebar at the start, for the 3 days, to check at the Passage Controls.

All controls (TC, PC) will be indicated by means of signboards.

The exclusion time is set **at ½ hour** (30 minutes) beyond the ideal time at any Time Control .

For obvious safety measures and ease in the classifications, the riders commit to report their withdrawal for any reason whatsoever to the Race Direction as soon as possible. Riders who do not respect this clause may be denied departure the next day, as well as any subsequent participation in the race.

### **Article 20: Special stages**

The time spent in special races will be taken into account for the ranking. The rider will have to follow the signposted route; otherwise he will be penalised up to disqualification.

For group departures, a fixed time will be applied for those who do not do execute all the laps.

### **Article 21: Itinerary - Refuelling – Followers**
